It continues to keep pace with Savannah and Kayden's love story as well, so you may have a feeling what is coming next, but I was surprised most of the time. Passion, angst, love, hatred, and even a little comedy!!! And now a bit about the story...Savannah and Brooklyn have flown to Vegas to surprise the guys. If you've read Savannah's books you know this is where Knox leans about Shayne and Savannah. Once that mess is under control, Brooklyn and Dixon get into their hot water, complete with a little Elvis thrown in ;) Can Dixon straighten up and act right or will Brooklyn decide Jax is the safer bet?Favorite passages: - Irsquo;m getting off the point here. Story of my life: always focusing on everything but the one thing I am supposed to be focusing on.- Yoursquo;re everything I didnrsto;t want and everything I need. - Irsquo;m betting on you Beaumontmdash;putting in all of my chips. So Irsquo;m begging you, please donrsquo;t break my heart or so help me, Godhellip; - Did I lose my common sense the second he walked into my life?0 of 0 people found the following review helpful. Dixon BrooklynBy AntkarenI was very happy to get to read shall we say behind the scenes of Brooklyn and Dixon. We already know the basics of their relationship but this book filled in A LOT of holes that we didn't read in Kayden and Savannah. I loved getting into Dixon's head and hearing what he was feeling. I already knew the love between them was instant it just took them a while to figure it out. The bar scene when Brooklyn told Jax she wanted to be with Dixon was heartwrenching on both because he had feelings but not the drop your socks type of feelings and so did she. But like she said they were pantie melting feelings like she gets when she sees or thinks about Dixon. My disappoint came in the fact that we didn't get to experience Brooklyn's pregnancy. That she had Charlotte and in the epologue she was what 2? I would love to have experienced her pregnancy, how she told Dixon, how he was in the delivery room stuff like that. All in all it was a good book and like I said filled in a lot of holes. I look forward to reading Jax when that comes out. I hope he gets his HEA with Rebecca.1 of 1 people found the following review helpful. Oh my Dixie stick!!!By Tabitha W.This is the perfect book, for a perfect series about a not so perfect woman. Brooklyn is real. I mean like everyday woman, text to meet for lunch real. So many women love her because they relate to her and I think, no I KNOW that they will love this book too.All the Dixon point of views are just fabulous. I loved seeing things from both of their perspectives. I'll admit I wasn't a fan of Dixon's back in The Savannah Series BUT he's grown on me.I can't wait to see what Danielle Jamie has in store for them, because we all know that her beloved characters don't stay quiet for long!!!

Las Vegas isn't called 'Sin City' for nothing...One weekend in Vegas will either bring Brooklyn and Dixon together or finally tear them apart for good.Can the Hollywood Starlet and the Southern Playboy truly settle down and give their love a fighting chance?Brooklyn is torn between two men, raging a war between her head and her heart. She's left it to fate which has lead her to Las Vegas and Dixon. But will she get the perfect Hollywood romance ending?It's time to bet on Beaumont..
